

Filtering Half Mask FFP2 NR (Pack of 10)

Cena:

8,64 € tax excluded

Produktové kódy:

Reference: VS005

Popis produktu:

5 layers of non-woven fabric (spunbond-meltblown-Hot Air Cotton-meltblown-spunbond fabrics)

3D-formed

The inner layer is a hydrophilic, non-woven spunbond fabric that is used to absorb moisture, including moisture released by the user. The outer layer is hydrophobic spunbond to protect user from Splashes. The filter layers in the middle - polypropylén meltblown, Hot Air Cotton (which plays the role of heat isolation and improves the wearer's comfort) and another layer of polypropylén meltblown are a barrier against Germs.

Double wire nose bridge

Flat, elastic ear loops

Disposable Mask

Filtering effect is at a level of $\geq 94\%$ (BFE)
EN 149: 2001 + A1: 2009
